

# AUTISM AWARENESS FOR TEACHERS

Autism Spectrum Disorder (ASD) is a developmental disorder that impacts a person's ability to interact socially. The number of children diagnosed with Autism has shockingly increased in recent years. Thus, teachers are bound to have children in their classes who are on the spectrum

 **Mode of Study:**  
>Virtual Campus

 **Duration:**  
15 hours

## ABOUT THE COURSE

This Autism Awareness for Teachers course is designed to assist you in effectively supporting students with autism spectrum disorders in your classroom. It will teach you about autistic children's typical behaviors and difficulties, as well as how to design a learning environment that meets their unique challenges and requirements. You'll know how to encourage them to reach their full potential.

## WHO IS THE COURSE FOR?

This course is for both novice and experienced teachers, beginning special education teachers, shadow teachers, teacher assistants, and supporting staff in schools.
