

# DIPLOMA IN TRAINING OF TRAINERS (TOT) FOR HEALTHCARE WORKERS

Feel confident in planning and leading effective healthcare training.

## Mode of Study:

- >Classroom
- >Distance learning
- >Virtual Campus

## Duration:

40 hours

## ABOUT THE COURSE

This course combines theoretical knowledge and practical projects to help healthcare workers become effective trainers, able to perfectly build the skills of other staff within their organisation.

## WHO IS THE COURSE FOR?

This course is designed to help doctors, nurses, lab technicians, pharmacists, therapists, medical team leaders and others in healthcare confidently deliver high-quality training sessions in their areas of expertise to other workers.

## LEARNING OUTCOMES

### Learning outcomes include:

- Meet trainees' needs analysis.
- Understand how workers receiving quality training can improve applied skills, knowledge and attitude in the healthcare sector.
- Build training structures and turn ideas into training session content by effectively setting priorities.
- Deal with different types of learners and behaviours in both in-person and online training.
- Gather feedback on own performance while preparing for delivering better sessions in the future.

## TOPICS

- Impact of Accelerating Learning on Increasing the Speed of Learning.
- Building the Training Cycle According to Evidence-Based Learning Techniques.
- Defining the Types of Learners and Ways of Process and Retaining Information.
- Delivering and Managing an Engaging Virtual Training by Using Educational Softwares.
- Communication and Presentation Skills for Both Physical and Virtual Training.
- Coaching and Mentoring Skills for the Growth of Employees in the Healthcare Sector.
- Skills of a Professional Healthcare Trainer.
- Evaluation and Assessment Skills for an Effective Learning Environment.
